

AR  VR[®]

Immersive Safety Training Starter Pack

Training that sticks for outcomes that matter

*The global leader in managed
immersive training for safety-critical skills.*

www.ARuVR.com

Why This Matters

Traditional safety training doesn't stick. Plain video and eLearning tick boxes, even classroom sessions don't prepare workers for real risks.

When it's too difficult, dangerous or expensive to scale in-person, live and guided training - Immersive training is proven to work. 360 exploration, VR or AR pushes the right buttons.

The ARuVR Immersive Safety Starter Pack delivers unforgettable training through immersive learning - so employees remember what matters most when it counts.

This is:

- Faster to deliver than custom XR development
- More engaging and effective than slides or video
- Built to fit safety-critical industries like manufacturing, transport, energy, and logistics

What's Included

✓ **1 Custom-Built Safety Training Module**

We can build a module tailored to your site needs, topics like these can get you started quickly:

1. Slips, Trips and Falls
2. Working at Heights
3. Site Induction & Emergency Response

We'll build with and for you.

Includes:

- 1 day of on-site filming (360° video & stills) – simple travel costs may be extra.
- Post-production, editing, interaction and assessment build.
- Delivered by the **ARuVR Immersive Studio** – a boutique team of expert XR learning designers, directors, and content producers.
- Hosted on ARuVR Studio platform cloud.

✓ **12-Month ARuVR Platform Licence (Viewer access)**

Host and deliver your training via VR headset or browser.
Track completions and usage with optional analytics.

✓ **1 VR Headset**

Ready-to-use with your content installed. Includes onboarding support.

✓ **Branded Delivery & Optional Analytics Dashboard**

LMS integration available as an option.

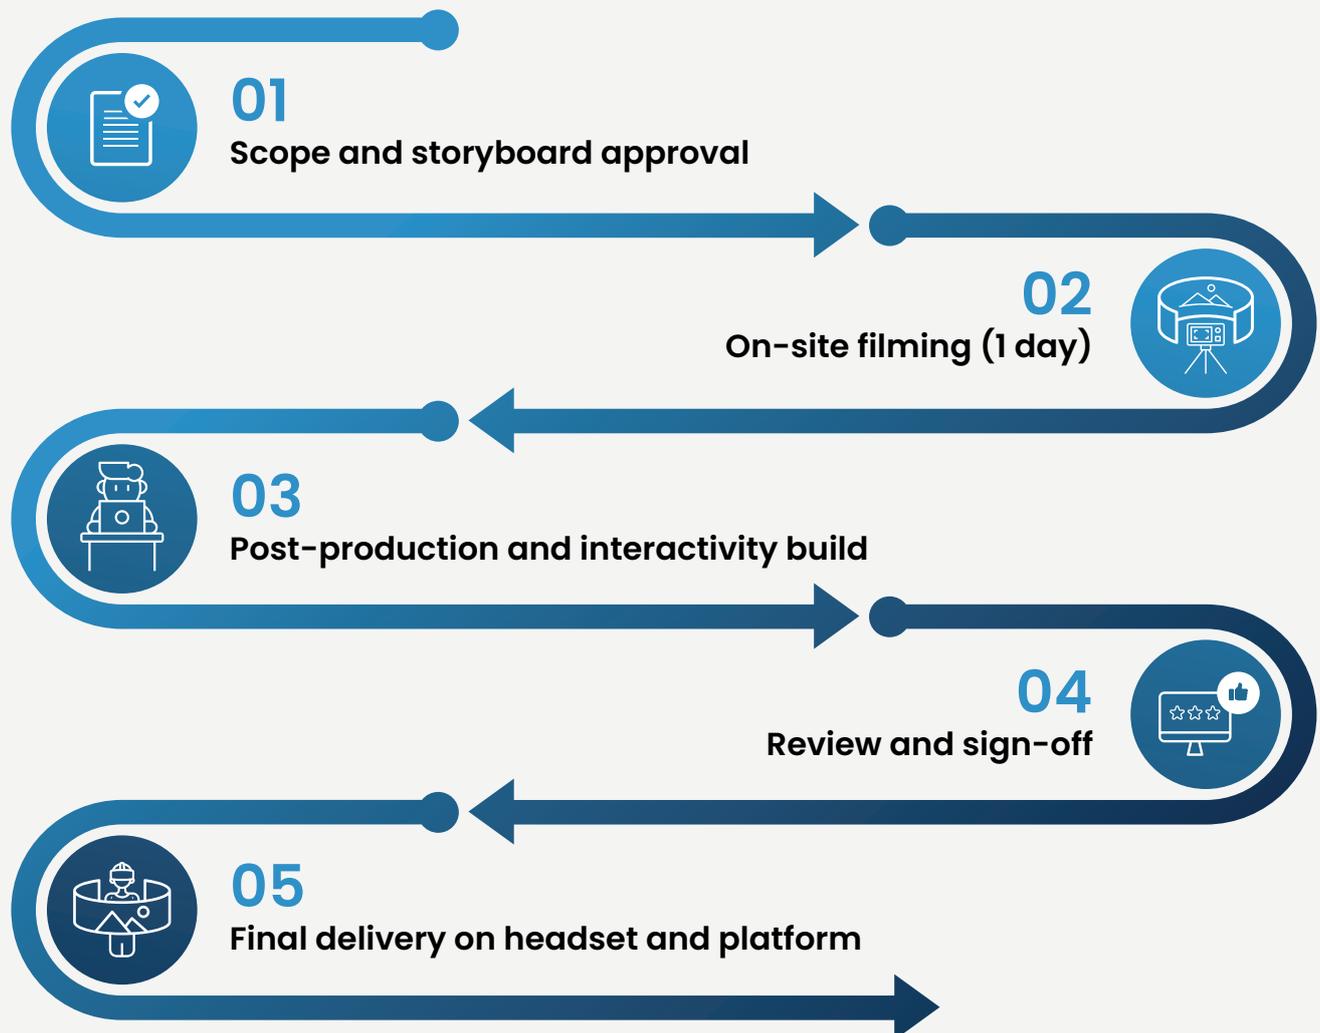

The Pack

| Pack | What You Get | When You Get It |
|--------------------------|---|--------------------|
| Safety XR Starter | 1 module built and deployed on 1 headset | 2 - 4 Weeks |
| Add more headsets | Fully configured | From script |

Delivery in **2-4 weeks**.

Final script agreed before filming. Custom signage, branding, or quiz content optional.

Steps we follow:

Who This Is For

- Site Safety Managers
- Heads of Compliance or HSE
- L&D teams supporting induction or contractor onboarding

Perfect for:

- Office campuses, warehouses, depots, plants, rail sites, logistics hubs, utilities providers and much more

Who This Is Not For

- Organisations without a defined safety or compliance function
- Teams seeking VR gaming, simulation, or entertainment use cases
- Those looking for generic off-the-shelf video content without any site customisation **coming soon!**

If you need help deciding if this fits your needs, we're happy to advise.

A R  V R[®]

Memorable by design.
Safe by practice. Effective at scale.
